

Cancellation and Refund Policy due to potential Middle East unrest: if the pastor and tour organizer agree the trip should be cancelled for security reasons, 100% of the cost of the land portion of the tour already paid by travelers would be immediately returned to the individual travelers. If the air tickets had already been written by the airline (generally about 30 days before departure), then refund of the air ticket cost would be up to airline policy at the time. In recent experience, airlines have been good to issue full refunds.
